GABRIELE SPICUZZA
3D FASHION DESIGNER

I'm a fashion designer with a focus on digital design. I've created and developed complete design concepts by turning them into 3D previews to show how garments and accessories could look. I've always used my skills to explore new styles and directions while keeping in mind the identify of each brand. My goal is to bring fresh, creative, and trendy ideas to materialize my vision through digital design.

EXPERIENCE

2024 Feb-Jul
Milan

JACOB COHËN
Internship at Jacob Cohën's headquarters in Milan, I collaborated with the designer to translate his paper sketches into 3D models during a 6 month internship.
